

Polish your skills with private virtual classes.

Use this time of “social distancing” to learn how to:

- Look and be your best when video conferencing
- Polish your dining skills
- Improve conversation skills

You will then be confident and ready when we can socialize again!

Each private session is custom designed for the needs of the client.

From professional image to interviews, MannersPro is available to assist the young adult or seasoned professional.

Sessions begin at \$75 for a 45 minute online class. Email now to reserve your time and make your payment by clicking on the PayPal button.
